SUMMARY

Machine Learning Intern with experience in analyzing 50K+ records and building predictive models using Python and Scikit-Learn. Skilled in EDA, feature engineering, and developing data-driven solutions.

EDUCATION

B.Tech – AI & Data Science, Lakireddy Bali Reddy College	2022–2026
CGPA: 8.02	
Intermediate (MPC), Don Bosco Jr. College	2021
Percentage:87.8%	
SSC, Sri Chaitanya School	2019
CGPA: 10	

SKILLS

Programming Languages : Python, SQL

Web Frameworks : Flask

Machine Learning:Scikit-learn, Regression, Classification, Clustering, Feature Engineering, Feature Selection, Model Evaluation, Hyperparameter Tuning,Cross Validation, Ensemble Learning

Deep Learning : Artificial Neural Networks (ANN),Convolutional Neural Networks (CNN), Recurrent Neural Networks (RNN)

Data Analysis : Pandas, NumPy, Matplotlib, Plotly, Seaborn

Databases : MySQL

Tools : Git, GitHub, VS Code, Jupyter Notebook

Cloud : Render

EXPERIENCE

ML Intern — BIST Technologies May–Jun 2024

- Analyzed 50K+ records and performed data cleaning, preprocessing, and feature engineering
- Built regression and classification models to extract meaningful insights from data

AI Intern — AIMERS Society May–Jul 2025

- Worked on classification problems using real-world datasets
- Applied normalization, preprocessing, and validation techniques for better performance

PROJECTS

AI Resume Analyzer

Technologies Used : Python | Flask | OpenAI | Bootstrap | Render

Live : <https://ats-resume-score-checker-2ujt.onrender.com>

- Developed a production-ready AI-powered ATS Resume Analyzer.
- Integrated LLM-based resume evaluation and job description matching.
- Generated ATS scores, skill-gap analysis, and personalized recommendations.
- Created downloadable PDF reports for detailed resume analysis.
- Deployed on Render using Gunicorn for scalable production hosting.

Drone Detection System

- Built an object detection system for identifying drones using image datasets
- Applied preprocessing and trained models to improve detection performance
- Evaluated results using accuracy and confidence score metrics
- Visualized predictions using OpenCV and Matplotlib

ACHIEVEMENTS

- Best Project Award – Final Year Project for “Predictive Analytics for Cardiovascular Risk Assessment in Vehicle Drivers”
- Runner-up as **Cricket Team Captain**, demonstrating leadership and teamwork

CERTIFICATIONS

- Python for Data Science — NPTEL
- Python Essentials — Cisco

INTERESTS

Machine Learning, Data Analysis, Data Visualization
